

February 27, 2019

Members of Education Committee:

I am a resident of the town of Monroe, with 3 children in the public-school system. I am writing to voice my opposition to following raised bills:

SB 874 - An act concerning education initiatives and services in Connecticut

SB 738 - An act concerning the creation of regional school districts

SB 457 – An act concerning the size of school districts

I do not believe these bills are in the best interest of my children or our local school communities. The state is not in the best position to determine what is best for our local communities. This is best left up to our local leaders who have a demonstrated history of success.

Best Regards,

Christy Dalton
Monroe, CT
